

Manitoba Independent Schools - Lead Testing and Mitigation Results

In 2019, Health Canada's released a new national guideline for lead in drinking water. The guideline lowered the allowable level of lead in drinking water and recommended testing drinking water at schools taps and water fountains. Manitoba adopted the guideline in 2020, and established a grant to support schools and child care centres to test drinking water for lead, and to take action to lower lead levels should test results be higher than the national guideline. The grant closed March 31, 2025. The following table presents final participation data for Funded and Non-Funded Independent School in Manitoba. For help with interpreting the table, please refer to the list below:

Was Testing Complete?

- No – testing was not completed
- Yes - testing was completed

Were Results Elevated?

- No – all samples collected from drinking water taps are below the guideline for lead (mitigation is not required)
- Yes - one or more samples tested above the lead guideline, results are elevated and mitigation is required
- Dash – no results or results not reported

Mitigation Status*

- Not Required – test results are not elevated and mitigation is not required
- Complete – mitigation work is complete (does not capture if retesting to ensure leads levels occurred)
- In-progress – mitigation work is on-going
- Not started – mitigation work has not begun
- Dash – site not tested yet or no mitigation information available

*Mitigation status refers to the work done to permanently address an increased lead in drinking water problem (e.g., replacing pipes, installing water bottle fill stations). This category does not capture interim corrective actions (e.g., removing handles, posting "do not drink signs", providing an alternative source of drinking water). Public Health recommends corrective action to prevent exposure to increased lead in drinking water until a permanent solution is available and confirmed to reliably reduce lead levels below the Canadian Drinking Water guideline.

School Name	Was Testing Completed?	Were Results Elevated?	Mitigation Status	School Designation
Académie Islamique Du Manitoba	Yes	No	Not Required	Funded Independent School
Al-Hijra Islamic School	Yes	No	Not Required	Funded Independent School
