Attention: Mr. Arnold Permut, Manager, Lab Services

Subject: Sutherland Avenue Manufactured Gas Plant Study Phase IIB

Dear Mr. Permut:

As a follow up to our telephone conversation on July 31, 1995 regarding the above mentioned study please find enclosed a copy of the proposal for phase IIB. As mentioned to you, Mr. Edwin Yee of Manitoba Environment will be contacting you to arrange for a meeting between yourself, Manitoba Environment and Environment Canada to discuss the proposal and to determine if our work plan will satisfy your requirements of an ecological risk assessment.

Centra's intentions are to carry out the Phase IIB work as quickly as possible this year provided that the timing for the river testing component is favourable for completion this summer.

I trust Mr. Yee will contact you as soon as possible to discuss this proposal. Thanking you in advance for your co-operation.

Yours truly,

Andrew Galarnyk  
Senior Co-ordinator, Environmental Affairs
