Subject: RE: Sutherland Avenue Excavation

Hi Randy:

Excavation is scheduled to start at about 9:30 or 10:00 am on Saturday.  
Thanks,  
..Bob

Nov 22 - attended the site 09:45

Sat Nov 20. Work was just getting underway. All workers were outfitted in chemical resistant suits, respirators etc. The excavation was to be as described. Soil was to be transported in a lined dump truck. Departed site at ~ 10:30. Concrete was just being broken at that time.
