Thanks Randy:

Electronic and hard copies of the reports are being sent by courier. I also included hard copies of the Manitoba Hydro and UMA presentations. The electronic documents were too large to email. Since we had extra hard copies, I thought we might as well include them too.

Attached is a scanned copy of the covering letters. Please let me know if you would like a clearer version in either hard copy or a .pdf.

Regards,
..Bob

Bob, I have contacted Drs Fast and Routledge and you were correct. Dr Fast has replied that Dr. Poplow did not give her any material. Dr. Routledge did not reply but I'll assume he did not get it either.

So to expedite things, could you please send electronic copies of the material to them:
