Do you like your water *naked*...

or does it have something to

The East Interlake Conservation District (EICD) conducts surface water sampling four times per year. To date, this is what we have found....

* Results of a Water Quality Index from 2007 water quality sampling. Ratings based on 13 water quality parameters.

“Balmoral Back Under”

“Ecosystems

Tilting

to Tipping”

“Woodlands All Wet”

Under Siege”

“Who’s Guarding the Lake?”

Headlines from the Stonewall Argus and Interlake Spectator

“Grosse Isle Water to Flow from Cartier”

“Teulon Basements Take in Water”

“E. COLI SOAR”

Over the past two years the EICD has monitored water quality through insects present in the creeks. To date, this is what we have found....

2006 - 2007 Family Biotic Index*

Grassmere Creek
• *Very sustainable*

Parks Creek
• *Very sustainable*

Netley Creek
• *Sustainable*

Wavey Creek
• *Sustainable*

* Family Biotic Index results of benthic invertebrate sampling in 2006 and 2007 using the Hilsenhoff’s family-level tolerance values.

We need your help in finding a solution...
