

## **Trade of Construction Electrician Regulation Update**

On April 12, 2018, the Manitoba government amended the trade regulation for the trade of Construction Electrician, Manitoba Regulation 40/2018. The following information details the change that has been made to the regulation and is effective beginning April 12, 2018.

### **Definitions**

Renewable energy systems, including wind, solar and water was added to the definition of electrical system.

### **Commonly Asked Question**

*Why was the definition of electrical systems changed in the trade regulation?*

Renewable energy systems was added to the electrical systems definition to reflect the contents of the new interprovincial Red Seal Occupational Standard. The definition now reflects the current practices of the trade.
